Step 1: the request arrives by email

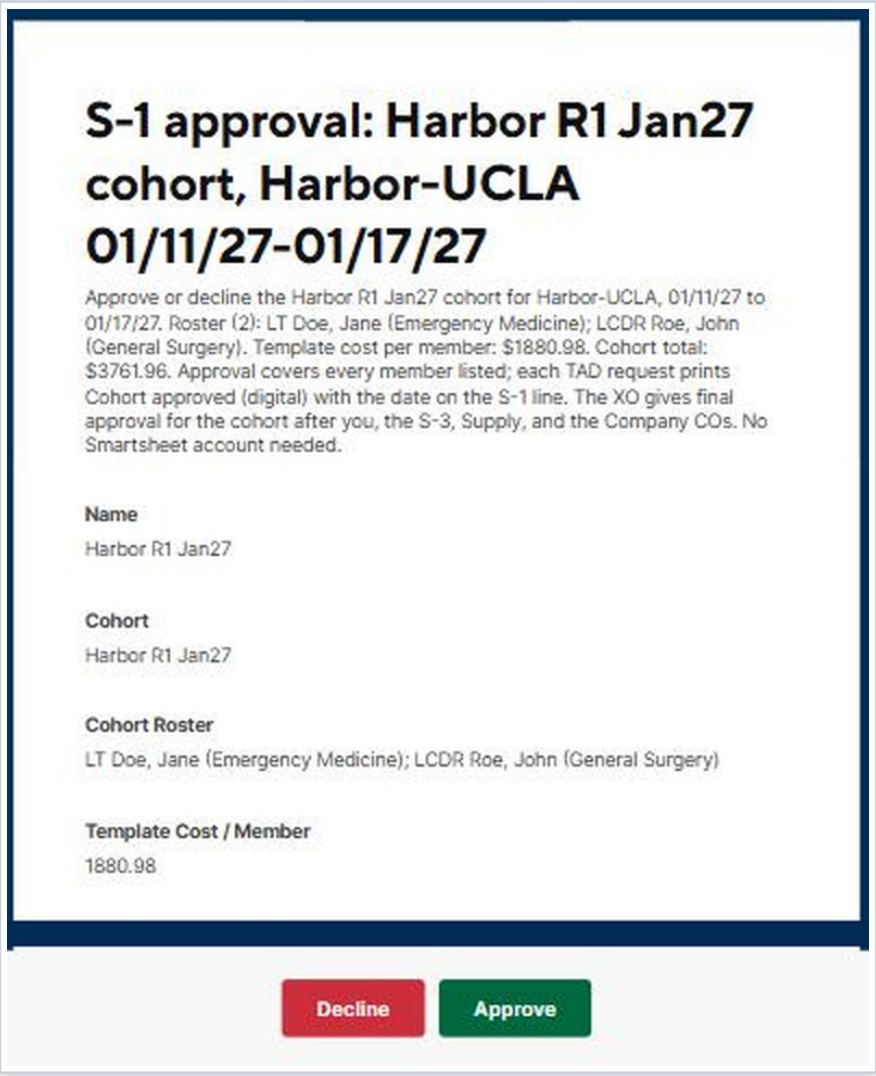

1. **From automation@app.smartsheet.com**
   Subject: "S-1 approval: [cohort], [site] [dates]". Add the sender to safe senders

2. **What you are approving**
   Site, dates, every member on the roster and the template cost

3. **Open request**
   One click opens the approve or decline page

Example data. Real requests carry the actual cohort.

Step 2: approve or decline

1. **Review the roster and dates**
   The page repeats the full roster, cost per member, cohort total and week

2. **Approve**
   Records your approval and today's date. Nothing else to sign

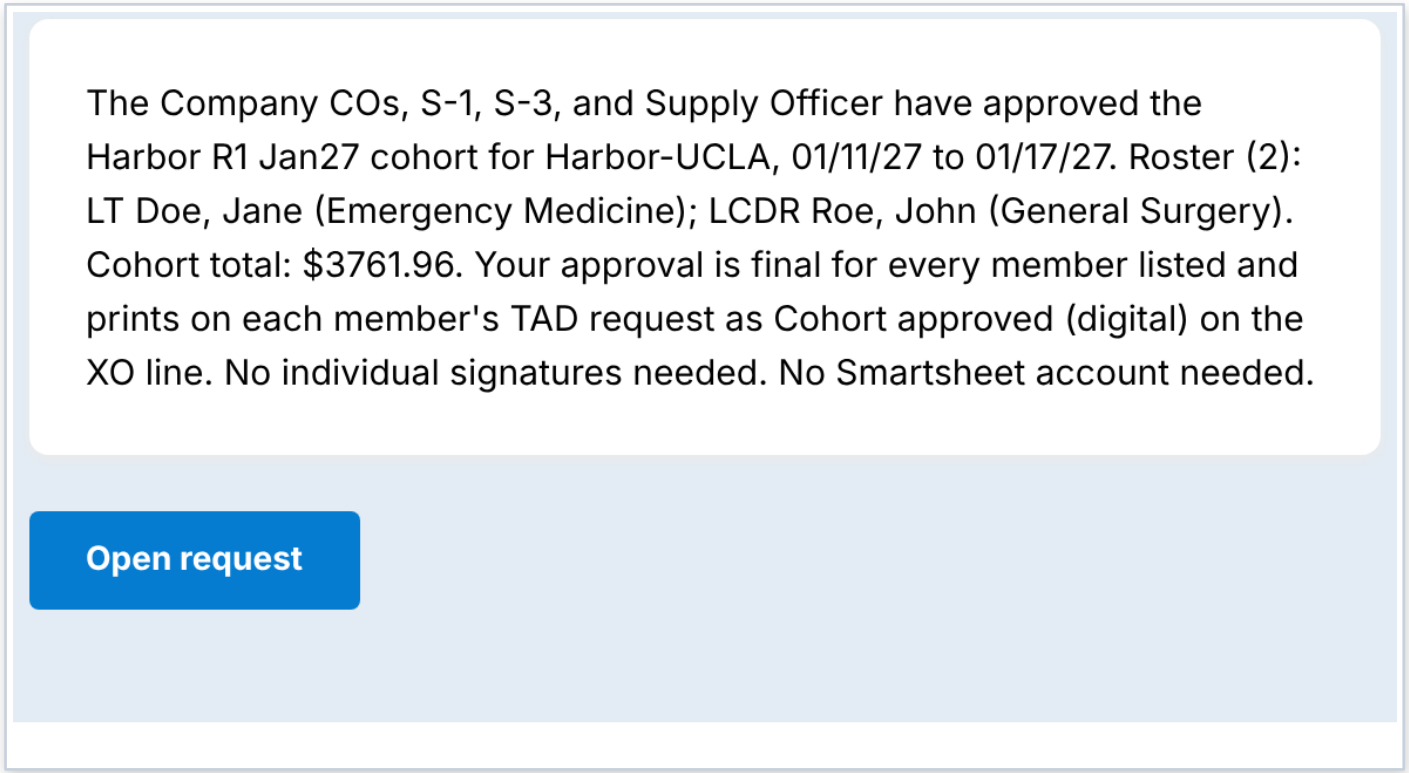

3. **Decline**
   The CMO is notified at once. Tell the CMO why; the page has no comment box

4. **Done**
   You can close the page. One response per cohort

What each approval means

XO: final approval

1. **Arrives last**
   Only after every Company CO with members, S-1, S-3 and Supply have approved

2. **Same two buttons**
   Open request, then Approve or Decline

3. **Replaces signatures**
   Your approval prints on each member's TAD request on the XO line
